

# CHEAT SHEET FOR UNIT 14: FUNCTIONS

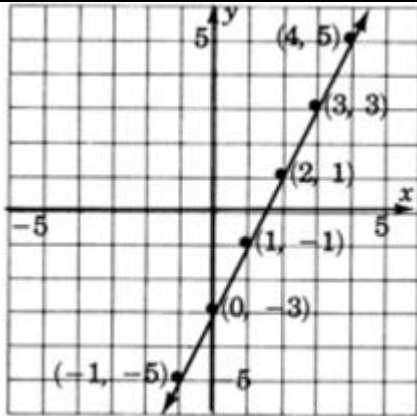

**Equation:  $y = -x - 3$**

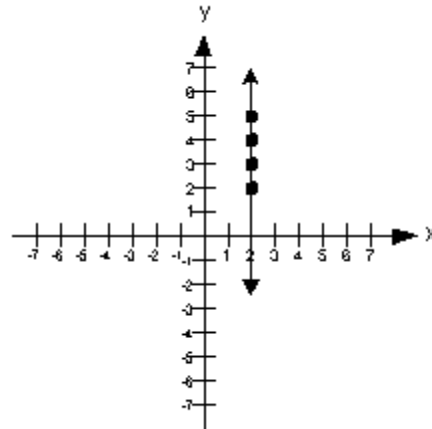

**Horizontal** lines always have a **Zero Slope**

Equation  $y = 4$  (for every value of  $x$ ,  $y$  is 4)

**Equation:  $y = 2x - 3$**

**Vertical** lines always have an **“Undefined”, No slope**

Equation:  $x = 2$  (for every value of  $y$ ,  $x$  is 2)
